Clock face induction

1. **S** holds imaginary clock at arms' length, just above their eyes
2. **S** imagines the clock pointing at 1 and **H** says "One, relaxing, going deeper"
3. **S** imagines the clock pointing at 2 and **H** says "Two, two, relaxing, relaxing, going deeper, going deeper"
4. ...and continue, repeating each part the appropriate number of times
5. **H** can make suggestions of relaxation and eye closure between numbers
